

PROGRAM

COLIN M. MACLEOD, *Chairman*
The Health Research Council

NORTON SPRITZ, *Acting Chairman*
The Association of Career Scientists

GUEST SPEAKERS

THE SCIENTIFIC ASPECTS OF ENVIRONMENTAL POLLUTION AND ITS CONTROL

MERRIL EISENBUD, *Administrator*
Environmental Protection Administration, City of New York

HUMAN REPRODUCTION AND POPULATION CONTROL

SHELDON J. SEGAL, *Director*
Bio-Medical Division, Population Council
The Rockefeller University

COMING CHANGES IN HEALTH SERVICES

BERNARD BUCOVE, *Administrator*
Health Services Administration, City of New York

CAREER SCIENTISTS

1. HUMANLIKE GLOMERULOSCLEROSIS IN MICE GENETICALLY DIABETIC
R. A. CAMERINI-DAVALOS, *New York Medical College*
2. THE CHARACTERISTICS OF PENICILLINASES OF VARIOUS
ENTEROBACTERIACEAE
HAROLD C. NEU, *Columbia University College of Physicians and Surgeons*
3. DETECTION OF THROMBOSIS ON CONDUCTING SURFACES BY
CAPACITANCE MEASUREMENTS
S. SRINIVASAN, *State University of New York Downstate Medical Center*
4. INTERACTION OF PROTEINS WITH LIPOSOMES: A MODEL FOR
MEMBRANE-BOUNDED ORGANELLES
GERALD WEISSMAN, *New York University School of Medicine*
5. INHIBITION OF MESSENGER RNA ATTACHMENT TO RIBOSOMES: A NOVEL
MECHANISM FOR THE DESIGN OF ANTIVIRAL AGENTS
ARTHUR P. GROLLMAN, *Albert Einstein College of Medicine*
